PMI | Project Management Institute

Scrum is an agile framework for managing knowledge work, with an emphasis on software development. It is designed for teams of three to nine members, who break their work into actions that can be completed within timeboxed iterations, called "sprints", no longer than one month and most commonly two weeks, then track progress and re-plan in 15 ...

Scrum (software development) - Wikipedia

What Is Project Portfolio Management (PPM)? According to the Project Management Institute (PMI), project portfolio management is the "centralized management of one or more portfolios that enable executive management to meet organizational goals and objectives through efficient decision making on portfolios, projects, programs, and operations."
